AUG 16 1956

MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT:

Utilisation Advisory Board for Product of

AQUATORE

- 1. The TAIRNT Control System established to provide security protection for Project AQUATORE during the utilization of its products in the production of intelligence provides for a CIA Utilization Board. This should be changed to Utilization Advisory Board.
- 2. This Board has the important mission of stimulating the Agencies participating in the TALENT Control System to exploit the AGENTUME product to the optimum benefit for intelligence production without directly citing the source or the raw information produced by the source. That the utility of the raw materials depends on its emultisation for use in intelligence estimates and reports has been clearly recognized by all concerned with Project AQUATONE.
- 3. The ED/I is designated Chairman of the Utilization Advisory Board, which will have as its members representatives of the participating agencies and offices namely: ACSI; ONI; AF; NSA; the CIA ELINT Staff Officer; the Chief, Foreign Intelligence Staff; a representative of the Director of Security and a representative of the Director of AQUATORS.
- 4. The Board, in fulfilling its mission, should be guided but not necessarily limited by the principles and procedures for the utilization of photography and COMINT as recommended by the Ad Hoc Requirements Committee for Project AQUATONE and approved by CIA. Further guidance which will relate to the ELLINT product is now under development by the same committee and will be conveyed to the Board when approved.
- 5. As the Board gains experience, it may find that new policies are required. Such new policies will be coordinated with the Project Birector in the light of his over-all security responsibility for Project AQUATORE.

ALIEN V. BULLES
